

CODAN MicroSpikes

Safe preparation and complete withdrawal from small drug vials

CODAN MicroSpikes

Optimised handling

Do you want to get the maximum doses out of the medication vial with the easiest handling possible?

CODAN offers you a safe, simple and needle-free solution for reconstitution and withdrawal of medication.

For further information about the CODAN MicroSpikes, see our product information 94.6026, our protocol 94.6113 and our CODAN Spikes brochure.

The CODAN MicroSpikes, especially designed for use on very small medication vials, are a compact and safe needle-free system for the preparation and withdrawal of medication.

An integrated, hydrophobic 0.2 μm air filter guarantees sterile aeration and venting and reliably retains aerosols during preparation.

Clear benefits

- Simple pressure equalisation with sterile aeration
- Needle-free system prevents needlestick injuries during preparation and withdrawal
- Complete withdrawal of medication out of small vials without rest volumes possible

CODAN Worldwide

CODAN is known internationally as a manufacturer and supplier of medical transfer systems. The CODAN Companies have more than 1500 employees around the world.

The name CODAN is synonymous with reliability, quality and precision based on the know-how and experience gained from more than 60 years of research and development. Company-owned production facilities and sales companies around the world are a guarantee for efficient production, a tight-knit sales network and a first-class service for customers in the healthcare sector.
