

CODAN is recognised amongst users as a manufacturer and distributor of medical devices, resulting from more than 60 years of research and development. As a global partner to the medical industry with Danish roots and production sites in five countries, CODAN contributes to the safe care of patients worldwide through reliable and innovative solutions. The globally operating CODAN Companies currently have 1,500 employees.

As soon as possible we are looking for a

## **Chief Information Officer (CIO) for planning and strategic management of IT**

The Chief Information Officer (CIO) is responsible for our rapidly growing IT. The CIO provides strategic advice in order to optimally support us in the development of our business areas. The tasks of the CIO include IT planning (“Business and IT Vision”), the selection of suitable technologies (“Design of IT Architecture”) and the coordination of IT operations (“Delivery of IT Services”). The CIO is based in our newly built premises in Køge, Denmark, but some travel activity is to be expected.

### **Your responsibilities:**

- Planning and strategic management of IT as well as definition of IT targets and IT strategies
- Controlling, monitoring and management of IT activities, IT resources and IT-related projects
- Ensuring the compliance with legal requirements
- Cost-, value- and risk-analysis of the IT
- Approvals for the purchase of IT equipment and software
- Controlling, monitoring and management of partnerships with IT service providers
- IT change management and surveillance of IT-trends
- Selection and implementation of suitable technology for business process optimisation

### **Your qualifications:**

- Bachelor’s degree in computer sciences, business informatics, engineering sciences or in similar field; master’s degree preferred
- At least 3 years of professional experience as CIO or in a similar leading position
- Experience in the development of IT systems, in IT project management and IT budgeting
- Very good understanding of business processes & business data (analyses)
- Excellent knowledge of IT systems and infrastructure
- Excellent written and oral communication skills and problem solving competence
- Very good organisation and leadership skills

If this position has caught your attention and your skills match the above, please upload your CV and application as soon as possible here: [“apply here”](#).
